

My name is Alissa Strambler-Rios, MSN, FNP-BC. I graduated from nursing school in 1994 with my LVN and have experience in medical-surgical, ICU, ER, pediatrics, and post-partum. I returned to school at age 30 and obtained an Associate in Science (2008), Associate in Nursing (2009), Bachelor of Science in Nursing (2010), and Master of Nursing and Family Nurse Practitioner (2013). Since graduating and becoming board certified in 2013, I have worked as a Family Nurse Practitioner covering all aspects of family practice, from age 6 months to end of life. I also have experience in addiction treatment, sober living, and pain management. I have decided to venture out independently to promote beauty and wellness.
